OtherActivity = Certifications = CPR, CPI (by summer)
Skill1 = Leadership- I can organize a group activity such as sports, arts and crafts, fishing, or any camp related
program. I went to various summer camps as a kid (for 9 years) so i saw first hand which techniques worked
and didn't. The most important part in organizing a camp is enthusiasm. If you're exited about what you're
doing, then the children will follow your example.
Skill2 = Aquatics-I am a excellent swimmer. At my last camp swimming was a requirement everyday.

Skill3 = Camp related activities- swimming, arts and crafts, fishing, canoeing, rock climbing, and ropes courses. Experiences = I spent years attending day camps and overnight camps. I participated in a Leader in Training program for a summer. Most recently I volunteered at a special needs camp for a summer. I also babysit regularly and have 3 siblings who i watch over Attributes = I have enthusiasm and passion for what I do. Ever since I was a camper I knew that i wanted to work in summer camps for as long as I could. I believe summer camps help shape children to become responsible, exciting, and well rounded people. Another attribute I possess is tolerance and patience. While working at the camp for special needs children I learned that being a camp counselor is a lot harder than it looks. Things will not always go your way and you need to learn how to handle children in tough situations in a safe manner.
