Activities = Pom Pom
Activities = Outdoor Camping
Activities = Digital Photography
Activities = Arts and Crafts

Activities = Swimming

Activities = Canoeing

Activities = Aerobics

OtherActivity = French, Foods, Creative Writing, Journalism Certifications = First Aid

Skill1 = One of my greatest interests is ceramics, which I have taken classes for in school as well as out of school for the past two years. I love to be creative and help people find their own inner creativity.

Skill2 = As well as taking tennis lessons for over five years, I was on my high school's tennis team for a year and aided my high school's tennis summer camp in 2008. I have taught children and even teenagers of many ages the basics of tennis and I really enjoy playing and teaching.

Skill3 = Canoeing is also a favorite hobby of mine, which I have been doing every summer since about age 8. I have canoed with people of many different skill levels and am very capable of teaching children how to canoe.

Experiences = During my sophomore year of high school I took a two semester Child Development class. In this class, I learned about the developmental process of children, health and safety procedures, and I was also given the chance to interact with and aid a 3rd grade elementary school class for about two months as part of the class's program. I also have a great deal of experience babysitting children aging from about 1 month to 12 years old for about the past 4 years.

Attributes = I am very reliable and can always be counted on to do any task to the best of my ability. I am a positive person and look for the best in any and every situation. I am always polite and very friendly as well as being trustworthy and motivated. Finally, I am very willing to learn new things and love working with kids of all ages.
