CampType = Camp for low income families
Religions =
Salary =
Availability = May 15 - August 15
Position = Counselor
Activities = Baseball
Activities = Golf
Activities = Basketball
OtherActivity =
Certifications =
Skill1 = I have good communication skills. As an education major, I have had to become very good at communicating with students to ensure that they learn the material.

Skill2 = I am athletic. I have played many sports in the past through the park district and school and have a good fundamental knowledge of several sports. I played golf at Lake Park High School and I currently play golf at Clarke College.

Skill3 = I have good leadership skills. As a prospective educator, I must be able to take charge of a classroom and maintain classroom management.

Experiences = As an education major, I had a lot of experience with students at the middle school level. I taught several lessons and literature circles with these students. In high school, I volunteered with a club volleyball team and helped coach a middle school girls team. Next semester, I will be student teaching at a high school in Dubuque, IA.

Attributes = I am patient with children and enjoy spending time with them, but I am not a push-over. If children are rowdy, I generally remain calm while trying to calm them down and will not let them take control. I like it for children to have a voice in a situation, but in the end I understand that I am the leader and make sure that they know it.
