Skill1 = I am great at throughly explaining things to kids and teens. my mother runs a home day care which has given me the ability to teach kids and help them understand learning skills.
Skill2 = Leader skills. When taking a preschool class in my first year of highschool, we were taught how to plan out a day and how to teach a new lesson to the class. the children were 3 to 4 years old, and from those ages we had to learn how to comfortably calm them down and teach them the lessons of the day.
Skill3 = I am great at learning and picking up new things fast. From watching my mom in her home day care i have learned how to pick up childrens attitudes and how to correctly handle children and from being a teen myself i think it would be a good oppurtunity to work with young teens to help them grow with both mental skills and physical.
Experiences = My mother has a home daycare and i have taken a preschool childhood development class in highschool Attributes = I feel as though i would bring alot of fun and positive re-enforement. i am great when working with people and im always open to learning and trying out new things.
